Conclusion of Event

JOIN OUR VOICE.....

To fill the need for statewide advocacy for manufacturers, MACNY, The Manufacturers Association of Central New York partnered with the Council of Industry in late 2006 to form the Manufacturers Alliance of New York State. Since then, the Chief Executive Network of the Capital Region (CEN), the Long Island Forum for Technology (LIFT), the Manufacturers Association for the Southern Tier (MAST), the Rochester Tooling and Machining Association (RTMA), the Buffalo Niagara Manufacturing Alliance (BNMA) and the IMA have all joined on, creating the largest statewide manufacturing alliance in New York history.

With that, each year the Alliance gets together once in Albany to bring its collective group into one voice for manufacturers. This year, the two day event is March 5-6 in Albany, and I invite you to join us. The exciting two event includes afternoon briefings, Legislative panels and leadership speakers, a cocktail reception and statewide group Lobby visits to representatives from all across the State.

Even if you have never visited your legislator before in Albany, it is important to start, and become involved! The voice of manufacturing needs to be heard in Albany and our elected officials need to know that manufacturing is still the engine the drives New York's economy. There is no doubt that other groups will be spending a lot of time and resources presenting their case in Albany. Don't miss you chance to help present our case!
