We will make masking optional	<div></div>		20	64%
Total Responses			31	100%

### OPEN QUESTION

Please add any additional thoughts or comments here

WE will still follow cdc guidelines as it relates to exposure and positive covid testing including mask requirements

We are waiting until after March 1, to make masking optional to see if the state change in policy leads to another surge before we do. As we monitor spread and case numbers we will continue to alter our mask policy.

We require vaccinations for all employees. For the few that have a medical reason not to vaccinate, we require both masks and social distancing. We continue to allow remote work, part time, for those who are able. We will wait until late spring to see where the situation is before deciding to change anything.
